REQUEST FOR CORRECTED FILING RECEIPT

Sir:

Please issue a corrected filing receipt for the above application. The original filing receipt includes the following error:

The Applicant(s) information is incorrect. Please correct the Applicant(s) information to read as follows:

Guolin Xu, Singapore, SINGAPORE
Pei-Lin Mao, Hong Kong, HONG KONG
Yuan Hong Yu, Singapore, SINGAPORE
Yuanzhi Lao, Hong Kong, HONG KONG
Chunyan Zhang, Singapore, SINGAPORE
Meng Hui Kwan, Singapore, SINGAPORE
Lin Kiat Saw, Singapore, SINGAPORE
Dor Ng Ting, Singapore, SINGAPORE
Dennis Lee Polla, Roseville, MN

A red-lined copy of the filing receipt reflecting the error is enclosed. The correct applicant information is shown on the attached signed copy of the Declaration and Power of Attorney which was submitted to the U.S. Patent and Trademark Office on August 21, 2006. Please note that Applicant Dennis Lee Polla is a non-signing inventor. A copy of the Decision

issued December 22, 2006 granting applicants' petition to accept without signature of non-signing inventor Dennis Lee Polla is also attached.

Respectfully submitted,

THIS CORRESPONDENCE IS BEING

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations

especiallly with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

DECISION ON RENEWED
PETITION UNDER
37 CFR 1.47(a)

This decision is issued in response to the renewed petition under 37 CFR 1.47(a) filed 21 August 2006. No additional petition fee is required.

BACKGROUND

The procedural background for this application is set forth in the decision mailed by this Office on 19 May 2006. In that decision, applicants' petition under 37 CFR 1.47(a) was dismissed without prejudice for failing to satisfy all the requirements of a grantable petition. Specifically, applicants had not submitted: (1) an acceptable a declaration executed by the inventors on their own behalf and on behalf of the non-signing inventor (the materials submitted by applicants appeared to be a compilation of multiple declaration documents); and (2) an adequate showing that the complete application papers and a request for signature have been delivered to the non-signing inventor at his last known address, and that the inventor has refused to execute the application papers.

On 21 August 2006, applicants filed the renewed petition considered herein (with required extension fee).

DISCUSSION

The renewed petition includes copies of the complete three-page declaration executed by each of the eight signing inventors; these declarations each contain an unsigned signature block for the non-signing inventor. These materials satisfy the declaration requirement of a grantable petition.

With respect to the non-signing inventor's refusal to sign the declaration, the renewed petition includes a supplemental declaration from Winnie Chua, with exhibits, which

demonstrate that: (1) a copy of the application, with a request for signature was delivered to the non-signing inventor at his last known address on 26 June 2006; (2) the inventor responded to this mailing by requesting a copy of the most recently amended version of the application; (3) the requested copy of the application as currently amended, with a repeated request for signature, was delivered to the home of the non-signing inventor on 28 July 2006; and (4) that no response to the 28 July 2006 delivery was received from the non-signing inventor prior to the execution of Ms. Chua's declaration on 17 August 2006. These materials, in combination with those filed with the original petition, provide an acceptable showing that the non-signing inventor has been presented with a copy of the application and has refused to execute the declaration.

CONCLUSION

Based on the above, applicants have now satisfied all the requirements for a grantable petition under 37 CFR 1.47(a). Accordingly, the renewed petition under 37 CFR 1.47(a) is **GRANTED**.

The application is accepted without the signature of non-signing inventor Dennis Lee POLLA.

A notice of the acceptance of the application will be published in the Official Gazette, and a letter informing the non-signing inventor of the application will be forwarded to the non-signing inventor at his last-known address, as set forth in the petition.

The application is being forwarded to the National Stage Processing Branch of the Office of PCT Operations for further processing. The date under 35 U.S.C. 371(c)(1), (c)(2), and (c)(4) is 21 August 2006.
